Tallant Correspondent.

EDITOR MONITOR.—A most attractive audience appeared at the Tallant Baptist Church on Sunday last to listen to the earnest eloquence of Rev. Brunner and the aged Mr. Beeson and others in behalf of the best modes to secure peace and the moral elevation of all. The MONITOR's salutatory was read and spoken of as containing thirteen gems of thought which are worthy of acceptance, and which was received unanimously. It was said a sense of the dignity of the profession of an editor as a public instructor should prevent him from engaging in any discussion that would not benefit its readers. It is thought that there are people enough in Jackson County to support all the papers that are now in it, if they will work like a band of brothers for the interest of the community at large, irrespective of creed, color, race, or sex. The aged Mr. Beeson announced his intention to lecture in every precinct in Jackson County in the behalf of the establishment of an Educational and Healing Institute for which a farm with a medical spring is offered as a gift on condition that the people will do something to get the institution started.

We Are Proud.

Our schools, under the management of Prof. W. S. Gore, is climbing up hill. Prof. Gore who is well qualified as principal of our school has labored under many disadvantages to bring our school up to its present high standing. It must be remembered that little progress, under such circumstances, is deserving of much credit. We have a new school building that would do credit to a town of 2,000 inhabitants; but it needs many important improvements to make it attractive for the young. We need a new set of blackboards—not wooden ones painted black, but something upon which it will be a pleasure to write. Our blackboards are not much better than those used in the Jacksonville schools. Let us have proper blackboards, good maps, globes and painted walls. More anon.

Medford Charter Election.

Medford is a chartered town—a corporation with all the independence of a little republic, delegated to it by its Charter. The evening of the 11th found us on an equal footing with other charter towns in the valley. The Charter was accepted almost unanimously, there being but two votes cast against it. Look out for the election of town officers. Let us have good men—men who are not afraid to do right and whom nothing will buy.
